Six Month of DataScience And Artificial Intelligence

Below is the dedicated six month roadmap of learning **data science and Artificial Intelligence.**

Make Sure to Follow the roadmap:

Month No 1:

1. Python (A to Z) for DataScience
2. DataScience Terms
3. Prompt Engineering
4. AI Basics Concepts
5. Web App Development using Streamlit

Month No 2:

1. Mathematics
2. Statistics
3. Machine Learning Concepts

Month No 3:

1. Machine Learning using Scikit Learn
2. Web Apps
3. Softwares
4. Deep Learning using TensorFLow

Month No 4:
1. AI and DataScience in Time Series Analysis
2. Natural Language Processing (NLP)
3. LangChain

Month No 5:

1. Website Development

2. Cloud Computing
3. Blogging
4. Social Media Handling
5. How to Earn?
6. Google Adsence

Month No 6 :

Will be Announced later in the course

Additional Courses:

1. **Microsoft Excel**
2. **SQL**
3. **Tableau**
